

## Tenant Satisfaction Measures 2024/25

We are committed to being open and transparent about how we are performing as your landlord. Each year, we report on Tenant Satisfaction Measures (TSMs), which are set by the Regulator of Social Housing. These measures show how satisfied tenants are with our services, how well we carry out repairs and safety checks, how we respond to complaints, and how safe and well-maintained our homes are.

These measures help us, and you see where we are performing well and where we need to improve. Safety checks are being completed on all homes. Most emergency repairs are completed quickly, but we are working to improve the speed of non-emergency repairs. While most tenants feel treated fairly and with respect, we know that, despite slight improvement, satisfaction with complaints handling is still low and needs focus. We will use these results to improve our repairs service, strengthen how we handle and learn from complaints, and continue to ensure all homes are safe and well maintained.
